## FEATURE OF THE MONTH

### An Update on Principal Trading

- By default, sponsored users (buy-side) do not interact with brokers acting in a principal capacity.
- We continue to see strong demand from buy-side firms looking to remove this restriction.
- YTD, 88 firms have enabled trading with principal contras. This brings our total to 256.
- In May, we set another record for volume traded between principal contras and the buy-side.
- For the most recent data on returns when trading with principal contras, see the link below: <https://bidstrading.com/files/Sponsored%20User%20Post-Trade%20Returns%20by%20Contra%20Type.pdf>
- Trying this feature does not require development work. To change your filter setting, speak with your BIDS coverage.
